Weather was bright & sunny – a beautiful day for a Frostbite

Your Frostbite handicap is calculated by taking the handicap figure to which you shot for this distance, added to your outdoor handicap and then divided by two. This is now your handicap for the Frostbite season and will be used against your total score for all future Frostbites this year. The reason for all this is because the Frostbite round is not a recognized round and therefore does not differentiate between styles.

For those of you who have not yet got an outdoor handicap your Frostbite handicap will be calculated after your next Frostbite shoot, so don't miss it!!!

Frostbite 300 medals were awarded to Mike Jones &
Stan Jenkins after achieving a score of over 300
